SOLID REPUTATION

Have high reputation for its commitments to customers, environmental, health and contribution to the society at large.

BRIEF HISTORY OF THE COMPANY

THADU CONSTRUCTION is a new name in the construction sector. Two of the directors worked with Brighter Homes as an agent to Natal Building Society. N.B.S was also involved with Property Consultants like J.H. Isaacs, Broll and others. Brighter Homes was given the task to renovate all the houses and buildings bought by N.B.S. We were doing renovations, interior decorations including wallpaper, partitioning, plumbing, electricity installations and maintenance and horticulture. We worked with Brighter Homes from September 1986, until it was sold in December 2001

We started to subcontract for Farrissan Building Constructors in January 2002. We also did some work for Refemo Maintenance mostly floor covering. We decided to register our own company in February 2004, because our reputation was not known, only those companies we were subcontracting to got the credit for our workmanship. Our association with Brighter Homes, Farrissan and Refemo was a blessing in terms of experience and skills.

NOTABLE ACHIEVEMENT

Some of the achievement under the auspices of Brighter Homes, Renovation and redecoration of Dept of housing previously Bank of Lisbon. Partitioning and redecoration of offices of Permanent Building Society in Eloff Street. To name but a few.

Achievements under Farrissan B.C. are building of 16 rooms double storey for S.A. German Chamber of Commerce. Built a clinic for Hospice.

Built day care centre for children, renovation of existing ablution facilities for Diocese Ministry Centre. Installed new plumbing system for Assembly of God Church.

One of our employees was helped by our company to register his own company namely Thamsanqa Building Construction. The company is still under our company mentorship.

STAFF EMPOWERMENT

Our company consist of six people, four being women and youth.

The CEO, Mingle Mzizi, feels in order for the company to achieve its mission statement, the following issues must be persuaded with a genuine passion and dedication and must be achieved.

- To increase the levels of skills and accountability within the construction arena.
- To empower staff with skills not only on building and other related activities, but also expose them to skills like Quantity Surveyors, Architects, Civil Engineers, Town planners etc.
- To enhance the levels of skills and confidence within the sales force and as a result thereof achieve greater performance levels and profitability
- To achieve higher levels of general administration through the promotion of affective communication, personal skills development and balanced controls.

OUR VALUES

- Loyalty and Patriotism
- Integrity and Discipline
- Honour and Respect
- Leadership and Courage
